He puts up an advertisement to sell his collection in the university notice board where he is an Engineering student. He is unsure whether any person will be interested to buy his collection as the advertisement is only valid for a period of one (1) month. As there is no response to his advertisement, Lewis offers to sell his collection to Jenson for RM8000. Jenson rejects the price in Lewis' offer and instead, offers to pay RM6000. Lewis refuses to accept the amount offered by Jenson. A week later, when Jenson finds out that Lewis is going to sell the said collection to Nigel, he tried to accept the original price of RM8000. Advise Lewis on whether the advertisement in the university notice board constitutes an offer under the Malaysian contract law.
